Funding

The KFC Foundation Community Grants Programme

The KFC Foundation loves its community, so we support grassroots organisations in the heart of KFC restaurant communities.

We want to fund work that helps young people to create firm foundations, by addressing their needs through early intervention.

This grant programme is for registered charities, registered community interest companies, unincorporated clubs or associations or unregistered charities with a turnover of less than £300,000. We will make grants of up to £2,500. **LEARN MORE**

SMALL GRANTS PROGRAMME

Sport England Small Grants Programme

We want to support projects that bring communities together and provide sport and physical activities for people who may be less physically active.

We also particularly want to support projects focusing on environmental sustainability.

We believe that communities that work together and share resources provide a stronger and more sustainable impact.

Therefore, we want applications from projects that demonstrate how they connect with their communities, make best use of the existing skills and assets in an area, and will provide the biggest possible impact to those who need it most.

Awards of £300-£15,000 are available to not-for-profit organisations.

Development Successes

#LetGirlsPlay Biggest Ever Football Session

On Wednesday 8th March the #LetGirlsPlay Biggest Ever Football Session took place linked in with International Women's Day! There was an incredible turnout of 285,000 girls taking part in football across the country!

ON THIS DAY!

The Government is setting out new standards for equal access to sports, making it clear that girls and boys should be offered the same sports during PE and extracurricular time in schools. This follows on from the success of the Football Association's (FA) #LetGirlsPlay campaign which is working to change perceptions and make sure girls get the chance to play football within the school curriculum, as well as at breaktime, after school and at local clubs.
