ONLINE CHILD SEXUAL EXPLOITATION

it's not the
70s
anymore!!

it's not old men
with puppies on
the street!

for lots of children....
virtual
is their
reality!

We have to
work with this
fact

Stranger
danger

...would you let your child on a train without you? Internet access is the same..

get on board with them... only get off if you know they are safe...

“Anything that gets invented after you’re thirty is against the natural order of things and the beginning of the end of civilisation as we know it ...until it’s been around for about ten years when it gradually turns out to be alright really.”

Douglas Adams

A strange phenomenon in which the photographer is also the subject of the photograph

Immediate upload of the photo to social media is also optional, but generally not recommended. By reviewing the photo on a large computer monitor one has a better chance to find and remove unintended, possibly embarrassing elements from the photo before others see it.

SELFIES

An over used word meaning taking a picture of your self. This is mainly used by people who are too lazy to say "take a picture of myself" or people who get obsessed with everything that's popular until it gets over used. Selfies are usually posted on Instagram, Facebook, etc.

A selfie is usually accompanied by a kissy face or the individual looking in a direction that is not towards the camera.
