# How to Record and Analyse Football

Online Webinar 6.30pm – 7.30pm,  
Wednesday 2 or 23 August.

IN ASSOCIATION WITH VEO'S LOCAL FA PARTNERS.

Veo helps every club, coach, team and player level up their game and sport.

We do it with a simple and portable camera that automatically records and live-streams sports via a state-of-the-art analysis platform, all powered by AI.

With a combination of advanced AI technology and ease of use, we have made this whole process available for everybody. From this, VEO has become a natural part of sports worldwide.

With the VEO Cam 2, you can live stream your games. Let friends, fans, parents and family who can't be there in person go through all the emotions of exciting victories and cruel defeats – when they happen. There truly isn't anything like watching sports live.

- ① What is VEO and how does it work
- ② Let's educate the grassroots community: How can VEO benefit you as a coach, player or team.
- ③ How to Analyse football using VEO; From the basic features (create highlights, tag players, draw of screen etc.) right through to VEO analytics.
- ④ How is VEO used by Clubs: Elite & Grassroots Club Case Study example.
- ⑤ Q&A: The opportunity to ask the VEO team anything else you need to know!

# How to Record and Analyse Football

There will be two opportunities to attend the webinar.

Webinar 1 - 2nd August

Webinar 2 - 23rd August
