Submitting Match Report (match return/statistics) in Matchday App

Please note: This guide shows the process for submitting match returns that has been altered in a recent update. Please make sure you have version 7.4 downloaded.

Once the match is finished it's time to fill out your match report to go straight through to Full Time. If you've used the live match view for the game then you can go straight into your match report after confirming full time at the end of the fixture.

1. First, open the Matchday app and head to the 'Matchday' tab of the fixture and it should bring you straight onto the 'Report' section. This will show you all the things you need to complete before you're able to submit.

3. Once you've selected the starters and subs, click on 'Confirm line-up to Full Time', which will then save your line-up. The 'submit line-up' on the Report tab should then show as green and Completed.
