COVID-19 SOCIAL DISTANCING GRAPHICS

To all businesses about to re-open, here are a few pointers to devise a good social distancing strategy. Think of your day-to-day operations and envisage all scenarios:

Customers in: Where should they go, how can I talk to them safely?

Delivery and collection points: Any designated areas?

Staff circulating in the building: Can we install a one-way system to limit contact?

Communal areas: Can we still use them one at a time?

Cleanliness of premises: Prompt people to use anti-bacterial wipes

Personal hygiene: Remind staff & customers to wash their hands and comply to social distancing

1000MM X 680MM
High quality acrylic with metal feet

Terms & Conditions:

All graphics are on a supply basis only.

Professional installation recommended.

Application area must be cleaned thoroughly before applying the sticker (clean and dry substrate).

Permanent stickers can be applied inside or outside. Don't apply to textured surfaces as this can reduce adhesion.

Longevity of floor graphics (average 1 to 3 months) will depend on their application, walk-through traffic, and frequency of cleaning. When cleaning the floor we recommend that care is taken not to lift the edge of the sticker.

Floor graphics are supplied with an anti-slip laminate and are for interior use only.

Floor graphics are suited to tiles, wooden and laminate floor – Carpet will drastically reduce their adherence.

We accept no liability for damage of substrate on removal of graphics; it is the customer's responsibility to carry out a test patch. Note stickers will not adhere to paint with stain repellent technology.

We endeavour to dispatch all items within 5 working days. Due to the high demand for these products and the material supply delays caused by COVID-19 some items may take longer to arrive.

P&P cost will apply. UK deliveries only.
