

WEMBLEY STADIUM - LEAVING A LOCAL LEGACY

FOR ROYAL NAVY

LOOKING AHEAD:

The sale of Wembley Stadium would enable an 85% uplift of investment into community football facilities compared to current investment levels.

£9M
worth of
community
football projects

For your County, this would mean:

EVERY PROJECT MUST:

1. Be based on local community football needs and identified via a Local Football Facility Plan
2. Benefit community clubs and leagues
3. Be accessible at peak times for community football

¹ Investment levels for the future without Wembley sale, from The FA, Premier League and DCMS, is expected to be £54m per year, so £540m over 10 years and £1.1bn over 20 years.
² Total net proceeds from a Wembley sale is expected to be £590m. Approximately £45m would be invested each year (excludes matched funding), with remaining funds earning an average 5% rate of return. With interest, total of £920m would be available for investment over 20 years, totalling £1.5bn with 40% matched funding.
³ The indicative share of future investment and Wembley proceeds for each County FA region is based on number of affiliated teams in 2017/18. This represents a good proxy for investment in your region.
⁴ Estimated costs are as follows: 3G pitch £850,000; changing pavilion £750,000; grass pitch £70,000.
